The Blue Water Edit

WELCOME BACK TO PARADISE

Island Escape

Every great vacation begins with something to look forward to. Whether you're counting down the days until your arrival or dreaming about your next visit, we're bringing a little bit of St. George Island to you with guest favorites, local highlights, and inspiration for your next coastal escape.

Your Property Owner

MEET BEN

Ben Hays is the owner of Latitude Adjustment and founder of Blue Water Beach Properties. Inspired by the beauty and tranquility of St. George Island, Ben has thoughtfully curated every aspect of Latitude Adjustment to deliver an exceptional coastal experience. From elegant renovations and premium amenities to the finest details of comfort and design, every decision reflects his commitment to quality. His vision is to provide guests with more than a vacation rental—it is a luxury beachfront retreat where families can relax, reconnect, and create cherished memories that last a lifetime.

Island Inspiration

Luxury isn't always found in grand experiences. Sometimes it's watching the sun dip below the horizon, listening to the rhythm of the waves, and sharing a peaceful moment with the people you love. That's the spirit of Latitude Adjustment—and the reason so many guests return year after year.

Island Spotlight

Start your vacation the moment you arrive! Grocery Gals will shop for your groceries and stock the refrigerator, pantry, and essentials before you check in. It's the perfect way to skip the grocery store and begin relaxing from the moment you walk through the door.
